## CHARG(ir)

**TABLETOP, CORDLESS  
PHONE CHARGING**

"Where can I charge my phone?" Guests feel out of touch when their phone battery is dying.

CHARG(ir) is a simple yet powerful box, flush-table-mounted. Guests lay their phones on top for wireless phone charging.

CHARG(ir) is powered wirelessly via POW(ir) pucks housed in the ceiling with no power outlets at the table required.

CHARG(ir) was designed for tables but can be mounted in any flat surface, such as reception room furniture, desks, etc.

# CHARG(ir)

## The Power's in the Puck

Our POW(ir) pucks are thermophotovoltaic (TPV) devices similar to ordinary energy-harvesting photovoltaic devices (such as light-chargeable calculators). Our POW(ir) pucks safely produce electricity via infrared (IR) thermal emitters.

Wi-Fi ENABLED

ir POWER

CHARG(ir) is a part of the Charter House Innovations Marketing Experience suite of innovative infrared products. Utilizing proprietary technologies, CHIME products enable effortless communication, timely messaging, and superior customer service.
