MESSAG(ir)

DYNAMIC MESSAGING SIGNAGE

MESSAG(ir) is a large-format ePaper dynamic messaging display that can be placed anywhere inside or outside. Changing the onscreen message is as simple as typing on a keyboard.

MESSAG(ir) can be used as part of a wayfinding system, displaying ads, schedule changes, or emergency messages and alerts.

Outside MESSAG(ir) can designate parking spots for delivery drivers, customer pick-ups, even VIP parking.

MESSAG(ir)

Tiled side by side, not top and bottom

Top Screen

Upside down on right

Bottom Screen

Right side up on left

FEATURES

- ePaper screen(s)
- Rotates through multiple images on loop
- Interior and exterior applications

The Power's in the Puck

POW(ir) pucks utilize Wi-Charge technology, which can deliver over the air charging using patented infra-red technology. The pucks can deliver power up to a 30ft. range while adhering to strictest safety regulations (approved by the FDA, UL and IEC worldwide). The system is comprised of two parts: a wireless power transmitter (similar to a router but with infra-red technology) and a wireless power receiver that is embedded in the client device.

Wi-Fi ENABLED

ir POWER

MESSAG(ir) is a part of the Charter House Innovations Marketing Experience suite of innovative infrared products. Utilizing proprietary technologies, CHIME products enable effortless communication, timely messaging, and superior customer service.
